Appendix B

Lesson Resources

Dancehall as a Reflection of Caribbean Society

Contents and alignment with the interdisciplinary model

Each resource is designed to serve the same model (Drake & Burns, 2004): the two subjects keep their own standards but are organised around a shared concept (music reflects and shapes the society that produces it) and shared skills (analysing a source, justifying claims with evidence, linking context to content).

Ref.	Resource	Lead	Lesson phase	How it supports the interdisciplinary model
B1	Collaborative cause-and-effect chart: set-up guide	Both	Induction to Closure	Makes the shared concept visible: musical features and historical causes sit on one display and are physically linked.
B2	Listening Guide	MT (Part A), HT (Part B)	Induction, Section 1	Musical lens feeding the shared question; Part B adds the social context.
B3	Timeline slides and event cards	HT	Section 2	Historical lens; students connect each event to a musical feature.
B4	Integrated Song Analysis Organizer	Both	Section 3	Core integrated task: feature, evidence, context, link, claim (shared skills).
B5	Glossary and sentence starters	Both	Throughout	Common vocabulary from both subjects; differentiation.
B6	Discussion norms and "take a stand" cards	Both	Section 4	Joins aesthetic judgement with social values; both teachers prompt.
B7	Dual-discipline rubric	Both	Section 3, Final evaluation	One rubric assessing both subjects plus the quality of integration.
B8	Observation checklist	Both	Sections 1 and 4	Co-assessment of Objectives 3 and 4.
B9	Exit ticket and marking guide	Both	Final evaluation	One sentence assessed against both subjects.

B1. Collaborative Cause-and-Effect Chart: Set-up Guide

Used in: Induction to Closure | Led by: both teachers | Visual, kinaesthetic and technology | Becomes the lesson's concept map

Purpose

The chart is the shared thinking tool for the whole lesson. Students and teachers add musical features and historical causes to one display and connect them, so that the integration of Music and History/Social Studies can be seen, not just described.

Colour key

Note colour	What goes on it	Who adds it
Pink	A musical feature heard (riddim, tempo, vocal style, language, production)	Students; Music teacher models
Green	A social inference or "I wonder why…" question	Students (Induction and Section 1)
Blue	A historical or social cause or event with date	History teacher and students (Section 2)
Yellow (or any unused colour)	Closing sentence: "Dancehall is …"	Students (Closure)

Physical chart layout (chart paper on the wall)

LEFT: What we HEAR (Music)	MIDDLE: Link	RIGHT: WHY (History/Social Studies)
Pink notes arranged top to bottom Green "first thoughts" notes sit along the top edge	String or arrows from each pink note to the blue note that explains it Write the link word on a small card (e.g., "cheap technology")	Blue notes with date and event Timeline strip along the bottom edge (cards from B3)

Materials

- 1 large sheet of chart paper (or taped flip-chart sheets) divided into three columns
- Sticky notes in three colours plus one extra colour; markers; string or wool and tape (or removable arrow stickers)
- Phone or tablet for photographs at three points: after the Induction, after Section 2, and at Closure

Digital version (mirror or alternative)

Any free shared whiteboard works. Examples include Padlet, Microsoft Whiteboard or Canva Whiteboards. Set up before class:

- Create three sections or columns with the same headings and colours as the wall chart.
- Add a fourth area titled "Tempo log" where students type the BPM they measured.
- Add a "Closing sentence" area and a short "Exit ticket" link (see B9).
- Share by link or QR code. Check beforehand that every device can open it, and set it so that students can post without an account if possible.

- *Low-tech fallback:* use paper only, and photograph the chart at the end. The lesson does not depend on the digital board.

Teacher key: possible links to guide students toward

Pink: musical feature	Link word	Blue: historical/social cause
Riddims reused by many artists	versioning	Sound system culture; small studios and producers serving community dances
Digital/synthesised sound ("Under Mi Sleng Teng")	cheap technology	Economic constraints; affordable keyboards and drum machines in the 1980s
DJ/toasting over the riddim	community voice	Sound system DJs as commentators; oral tradition
Jamaican Creole in performance	identity	Post-independence national identity; language, class and respectability
Subject matter ("slackness" and "culture")	contested values	Urban poverty and political tension in the 1970s–80s; class attitudes

B2. Listening Guide

Used in: Induction and Section 1 (Part A, Music teacher); Section 2 (Part B, History teacher) | Auditory, visual and technology

Name: _____ **Date:** _____

Essential question: How does the sound of Dancehall reflect the society that created it?

Part A: What do we hear? (Music)

Listen with headphones. Use musical vocabulary. Do not copy lyrics; describe the delivery instead and note timestamps for evidence. Clap or tap the pulse on your second listening.

Listen for…	Song 1: "Bam Bam" (Sister Nancy, 1982)	Song 2: "Under Mi Sleng Teng" (Wayne Smith, 1985)
Tempo (tap tempo, BPM)		
Pulse and feel: where does the strongest accent fall? (clap along)		
Instruments and sounds (bass, drums, keyboard, guitar, other)		
Live band or programmed/digital? What tells you?		
Vocal delivery (singing, DJ/toasting, singjay)		
Language and delivery (features of Jamaican Creole you can describe)		
Mood and energy (three adjectives)		
Inference: what might this tell us about the people or society that made it? (put on a green note)		

Part B: Why does it sound like this? (History/Social Studies)

After the History briefing, complete three rows using the chart.

Musical feature (pink note)	Because… (historical or social cause, with date or event)	Link word

Part C: Compare

One way the two songs are alike	One way they are different, and why that might be

Teacher key (confirm by your own listening before use).

Feature	"Bam Bam"	"Under Mi Sleng Teng"
Production	Recorded with live-band feel; roots-reggae influence	Digital/programmed keyboard-based rhythm and synthesised bass
Vocal style	DJ/toasting delivery over the riddim	Singing-led vocal over a sparse digital riddim
Context link	Sound system culture and reuse of material	Cheaper technology and economic constraints

B3. Timeline Slides and Event Cards

Used in: Section 2 | Led by: History/Social Studies teacher | Visual and kinaesthetic

Slide outline (6 slides)

Slide	Title	Content
1	Our question	Essential question; reminder of the chart colours.
2	Kingston and the sound system	Map of Jamaica/Kingston; one or two images of a sound system dance (licensed or Creative Commons).
3	From independence to the 1970s	Independence (1962); sound systems and DJs; political change and tension (1972–1978).
4	Economic pressure	Unemployment, debt and austerity; the lives of young people in inner-city communities.
5	Technology changes the sound	Cheaper digital instruments in the 1980s (link to "Under Mi Sleng Teng").
6	Debate: "slackness" and "culture"	Class, language and respectability (Theme 9 concepts); leads into Section 4.

Teacher key: events in date order

Date	Event	Possible link to a musical feature
1950s	Sound systems grow in Kingston: DJs and selectors play records on large speakers at street dances.	Riddim; DJ/toasting; community role of the music
1962	Jamaica becomes independent from Britain.	Jamaican Creole and national identity
c. 1970	DJs such as U-Roy become popular by talking and chanting rhythmically over recorded riddims.	DJ/toasting style
1972	Michael Manley becomes Prime Minister, promising social reform.	Hopes and tensions reflected in lyrics
1976	A State of Emergency is declared amid political violence.	Political tension as a theme
1978	The One Love Peace Concert is held to try to calm political violence.	Music as a peace-making and political force
Late 1970s–1980s	Economic strain: high debt, IMF agreements and unemployment, especially among young people in inner-city communities.	Low-cost production; subject matter
1980	A violent general election takes place; Edward Seaga becomes Prime Minister.	Political commentary in lyrics
1982	Sister Nancy records "Bam Bam".	Female DJ voice; reuse of earlier material
1985	"Under Mi Sleng Teng" uses a rhythm from a low-cost Casio keyboard; digital riddims spread.	Digital production; cheap technology

Student event cards (print on card, cut out, shuffle; do not print the dates)

Students place the cards in order along a floor or wall timeline, then add the date and a blue note linking each event to a pink note on the chart.

A. Large speakers and turntables bring street dances to Kingston neighbourhoods.	**B.** Jamaica becomes an independent nation.
C. DJs chant and talk rhythmically over recorded instrumental tracks.	**D.** A new government promises social reform.
E. The government declares a State of Emergency after political violence.	**F.** A concert is held to encourage peace between political rivals.
G. Debt, rising prices and unemployment put pressure on young people in inner-city communities.	**H.** A tense election is followed by another change of government.
I. A woman DJ records a song that becomes a lasting classic.	**J.** A cheap keyboard rhythm inspires a new digital sound across the island.

Answer key: A=1950s, B=1962, C=c. 1970, D=1972, E=1976, F=1978, G=late 1970s–1980s, H=1980, I=1982, J=1985.

B4. Integrated Song Analysis Organizer

Used in: Section 3 | Both teachers | Marks: Part A = 3, Part B = 3 (feeds the Table of Specification)

Name: _____ **Song assigned:** _____

Part A: Three stylistic features (Music)

Feature	Describe it using musical vocabulary	Evidence (timestamp / description, no copied lyrics)
1.		
2.		
3.		

Part B: Link each feature to its context (History/Social Studies)

Feature (from Part A)	Historical or social cause	Evidence (event, date)	This feature links to this cause because…
1.			
2.			
3.			

Part C: My claim

Answer the essential question in 2–3 sentences. Include **one piece of musical evidence** and **one piece of historical evidence**.

Self-check: ☐ Names a musical feature ☐ Names a historical cause ☐ Uses the word "because" to connect them ☐ Answers the question

Part D: Choose how to show your thinking (tick one)

☐ **DJ commentary**: record a 60-second voice note explaining your claim	☐ **Listening map**: annotate a visual map of the song with musical and historical notes	☐ **Riddim recreation**: perform or build the riddim pattern (body percussion or free digital tool) and explain it

B5. Glossary and Sentence Starters

Used in: throughout | Both teachers | Differentiation and support

Glossary

Term	Meaning (as used in this lesson)
Riddim	A reusable instrumental track (bass line, drum pattern, harmony) on which different artists record their own songs.
Version / versioning	Re-using a riddim, or re-recording a song, with new vocals or as an instrumental.
Sound system	A mobile set of turntables, amplifiers and large speakers used to host dances; also the crew that runs it.
Selector	The person who chooses and plays the records at a sound system dance.
DJ / toasting	In Jamaican usage, the vocalist who talks, chants or raps rhythmically over a riddim (not the person who plays the records).
Singjay	A vocal style that blends singing with DJ-style chatting.
One-drop	A reggae drum feel in which beat 1 is left empty and the main accent falls on beat 3.
Tempo / BPM	The speed of the music, measured in beats per minute.
Jamaican Creole	The English-based Creole language widely spoken in Jamaica (often called Patwa/Patois); a marker of local identity.
"Slackness"	A term used in Jamaica for sexually explicit or vulgar lyrics and performance. The label itself is part of a debate about class and respectability.
"Culture" / conscious	Lyrics with social, political or spiritual commentary.
Post-independence	The period after Jamaica became independent in 1962.
Austerity / IMF	Government spending cuts and loan conditions linked to the International Monetary Fund.

Sentence starters

- One musical feature of this song is _____, which I can hear when _____.
- This feature links to _____ because _____.
- The historical evidence for this is _____ (event/date).
- Dancehall reflects Jamaican society because the music shows _____ and history shows _____.
- I agree/disagree that _____ because the music _____ and history _____.

B6. Discussion Norms and "Take a Stand" Cards

Used in: Section 4 | Both teachers | Kinaesthetic and auditory | HFLE link: respectful discussion of sensitive content

Discussion norms (poster)

- Listen fully before responding.
- Challenge ideas, never people.
- Back every view with evidence from the music **and** from history.
- You may change your position at any time, and say why.
- Keep examples of sensitive lyrics analytical: describe, do not repeat.

Set-up

Tape a line on the floor with "Agree" at one end and "Disagree" at the other. Read one statement at a time. Students stand at a point on the line, explain their position, then may move.

Statement cards (cut out)

1. Dancehall reflects real conditions in Jamaican society.	2. Dancehall harms society's values.
3. Dancehall deserves a place in school music study.	4. Artists are responsible for the messages in their lyrics.
5. Cheap technology changed who could make music.	6. Dancehall is entertainment, not history. *(spare)*

Teacher prompts

Music teacher prompts	History/Social Studies teacher prompts
What in the music supports your view?	What in the history supports your view?
Which feature would you point to, and why?	Which event or condition best explains that?
How would that sound different on another riddim?	Whose view of this music is missing from our chart?

B7. Dual-Discipline Rubric

Used in: Section 3 and Final evaluation | Scored by both teachers on the same work | Total: 16 marks

Criterion	Beginning (1)	Developing (2)	Proficient (3)	Exemplary (4)
Musical knowledge *(Music)*	Names one feature, with errors or little description.	Names two features with some description.	Accurately names and describes three features using musical vocabulary.	Accurately and precisely describes three or more features, comparing songs with specific detail.
Historical and social understanding *(History/SS)*	Mentions context in general terms only.	Identifies one or two relevant events or conditions, with some inaccuracy.	Accurately explains three relevant events or conditions.	Accurately explains conditions and shows how they interacted (e.g., politics and economy).
Integration *(both)*	Music and history are treated separately.	Links one feature to one cause, with limited explanation.	Links each feature to a specific cause and explains the connection.	Explains links and evaluates how well the music reflects society, noting complexity or counter-views.
Evidence and communication *(both)*	Claim has no clear evidence.	Claim uses evidence from only one subject.	Claim uses one musical and one historical piece of evidence, clearly expressed.	Claim is well-reasoned, uses precise evidence from both subjects and is fluently expressed.

Scoring map for this lesson

Assessment	What is scored	Table of Specification marks
Organizer Part A	1 mark per accurately described feature	3 (Objective 1)
Organizer Part B	1 mark per accurate feature-to-context link with evidence	3 (Objective 2)
Observation checklist (B8)	Riddim patterns; respectful, evidence-based discussion	2 (Objective 3) + 2 (Objective 4)
Exit ticket (B9)	Claim, musical evidence, historical evidence, "because" link	4 (Objective 5)
Total		**14**

Reasonable level of achievement: at least 10/14 (about 70%) across these tasks. The 16-mark rubric above gives holistic feedback on the integrated product (organizer, claim and chosen product); at least two of the three students should reach "Proficient" on the **Integration** criterion.

B8. Observation Checklist

Used in: Section 1 (Objective 3) and Section 4 (Objective 4) | Completed by both teachers | Total: 4 marks per student

Tick (✓) if the criterion is met. Add brief notes. Initial the box of the teacher who observed.

Criterion (1 mark each)	Student 1	Student 2	Student 3	Notes / observer
Objective 3 (psychomotor)				
Performs the one-drop body-percussion pattern accurately				
Performs the digital riddim pattern accurately and can describe how it differs				
Objective 4 (affective)				
Listens respectfully and responds to others' views without put-downs				
Supports a position with musical **and** historical evidence				
Total (out of 4)				

Additional observations (optional)

	Student 1	Student 2	Student 3	Comment
Used the digital tools independently				
Changed position and gave a reason (Section 4)				
Added links between pink and blue notes on the chart				

B9. Exit Ticket and Marking Guide

Used in: Final evaluation (3 minutes) | Marked by both teachers | Total: 4 marks (Objective 5)

Student exit ticket (print, or use a digital form with the same fields)

Name: _____

Complete this sentence:
"Dancehall reflects Jamaican society because the music _____ (musical evidence) and history shows _____ (historical evidence)."

Confidence check: How sure are you that you can explain this to someone else? ☐ Not yet ☐ Mostly ☐ Yes

Marking guide (teachers)

Mark	Award the mark if…	Scored by
1	The sentence answers the essential question.	Both
1	The musical evidence is accurate and specific (e.g., names a feature such as riddim, tempo or vocal style).	Music teacher
1	The historical evidence is accurate and specific (an event or condition, with a date if possible).	History teacher
1	The sentence explicitly connects the two ("because").	Both
Total		**4**
